6 The inclusion of this explanation does not constitute agreement with

8 This bill establishes a mass notification and emergency
9 messaging system fund.

10 The bill defines "mass notification and emergency messaging
11 system" to mean a system which disseminates emergency
12 and public safety related information to the public by
13 various means including but not limited to telephone,
14 wireless communications service, dual party relay service or
15 telecommunications device, text messaging, electronic mail,
16 and facsimile, and which integrates with federal emergency
17 messaging systems.

18 The bill commences with a session law provision expressing
19 the legislative intent that the mass notification and emergency
20 messaging system fund receive an annual appropriation to ensure
21 that the system functions throughout the state on an ongoing
22 basis.

23 The bill creates the fund in the state treasury under the
24 control of the department, consisting of moneys appropriated
25 by the general assembly and any other moneys available to and
26 obtained or accepted by the department for placement in the
27 fund. The bill provides that, notwithstanding Code section
28 12C.7, interest or earnings on moneys in the fund shall be
29 credited to the fund, and that, notwithstanding Code section
30 8.33, moneys credited to the fund that remain unexpended or
31 unobligated at the end of a fiscal year shall not revert to any
32 other fund.

33 The bill provides that amounts contained in the fund shall
34 be used exclusively to provide for the purchase and ongoing
35 operation of a system capable of providing mass notification

1 and emergency messaging to the public. The system shall be
2 purchased from a vendor selected by the department pursuant to
3 a competitive bidding process, and shall, once purchased, be
4 under the control of the department.

5 The bill specifies that information disseminated to the
6 public through the mass notification and emergency messaging
7 system shall be limited to imminent emergency and public
8 safety-related issues. The bill authorizes the department
9 to provide access to the system for use at the county and
10 local level. Access by a county or local government shall be
11 at the department's sole discretion, and if approved by the
12 department, shall be under the control of the local emergency
13 management commission or joint emergency management commission.
14 The bill states that such commission shall establish an
15 operational plan and procedure which meets standards adopted by
16 the department by rule, and shall submit the operational plan
17 and procedure for approval by the department prior to access
18 being granted. Additional access criteria and procedures for
19 administering the fund are to be established by the department
20 by rule, and the director is authorized to employ such
21 additional staff as may be necessary to administer and operate
22 the system.

23 The bill provides that all personal information collected
24 for use in the system, including but not limited to the names
25 and contact information of emergency messaging recipients,
26 shall be considered confidential records under Code section
27 22.7. The bill authorizes the director, however, to provide
28 all or part of such confidential information to federal, state,
29 or local governmental agencies possessing emergency planning or
30 response functions if the director is satisfied that the need
31 to know the information and its intended use are reasonable.
32 The bill states that an agency receiving confidential
33 information pursuant to this exception shall not disseminate
34 the information in any form without prior approval by
35 the director. A corresponding provision is added to the
